

DAM series

High voltage detectors, made in Japan

Specialized in high voltage usage

For main electrical
circuit and for battery
function checking
in power-on

Telescopic rod structure

Developed by

Central power
grid in Japan

Product ID	DAM-70	DAM-170
Voltage range	AC20~80.5kV	AC60~195.5kV
Initiation of movement voltage (Bare wire/voltage to ground)	AC10kV	AC20kV
Frequency	50/60Hz	
Indication	Continuity beeping and flashing	
Flashing	Confirmable by 8000lx illuminance	
Beeping	More than 50dB away from 1m	
Withstand voltage	AC75kV/1min(on 30cm distance insulating rod)	
Operating Temperature	-10~40℃	
Power Supply	AAA battery (R03 1.5V) *2	
Dimension	φ28.5×1050mm	φ34×1050mm
	φ28.5×2400mm	φ34×3600mm
Weight	Approx.530g	Approx.790g
